

eCommerce Platforms Through Customers' Eyes

SCAYLE[®]

Enterprise brands don't need promises – they need platforms built to scale.
Here's how real users rate leading eCommerce players:

			
	Big price, small return	Training wheels for commerce	The enterprise engine
NPS SCORE	65%	90%	100%
LIKES	+ Broad features set, especially for B2B commerce	+ Multiple payment options + Easy order management	+ Scalability + Seamless integrations + Enterprise-grade features + Intuitive UI + Customer-first onboarding
DISLIKES	- High licensing fees - Poor composability - Slow feature rollouts - Weak customer support - Clunky UI/UX	- Slow customer service - Costly third-party add-ons - Limited customization - Reliance on Shopify checkout - Difficult to localize	- Not ideal for small or mid-sized businesses - Partner network still developing
BEST FIT	B2B-focused brands with complex needs	Small businesses new to eCommerce	Complex enterprises with global customers and high expectations

Who's Winning Over Retailers?

SCAYLE[®]

Customers on Gartner Peer Insights rank SCAYLE's customer experience and market features significantly higher than SAP & Shopify.
